PROFESSIONAL EXPERIENCE

FactSet Information Systems Nov 2025 – Present

Advisor — Client Solutions · Hyderabad, India

- Cut model update latency by 30% for Goldman Sachs, UBS, JP Morgan, and Morgan Stanley by automating valuation workflows via FactSet Query Language.
- Accelerated deal pipeline screening by building multi-criteria target identification frameworks using FactSet's Universal Screening and Mergers & Acquisitions dataset.
- Built financial returns and sensitivity models for 10+ active mandates, supporting pitch book preparation and deal execution for senior bankers.
- Mentored junior analysts on valuation methodologies and FactSet workflows, improving team delegation efficiency across advisory mandates.

Baron Capitale & Wealth Management Jan 2025 – Mar 2025

Wealth Management Intern · Bengaluru, India

- Achieved 95%+ valuation precision on NBCC Ltd and L&T; Finance through DCF and LBO analysis with multi-scenario sensitivity modeling.
- Improved forecasting accuracy by 12% by building 5 three-statement financial models with Monte Carlo simulations for M&A; target assessment.
- Drafted investment memorandums and pitch books for Series A advisory using comparable company and precedent transaction benchmarking.

Air India SATS Services Jul 2022 – Feb 2023

Customer Service Executive · Bengaluru, India

- Cut customer complaints by 40% for Emirates Airlines by leading statistical process re-engineering across high-volume operations.
- Achieved 96% on-time departure rate by coordinating 5+ cross-functional teams under time-sensitive operational constraints.
- Improved passenger throughput by 15% through KPI-driven process optimisation while maintaining full regulatory compliance.

CORE COMPETENCIES & TECHNICAL SKILLS

- Financial Analysis & Modeling:** DCF, LBO & Merger Modeling · Three-Statement Financial Modeling · Comparable Company & Precedent Transaction Analysis · Capital Structure & Credit Analysis · Sensitivity & Scenario Modeling · Pitch Book & Information Memorandum Preparation
- Strategic Advisory & Soft Skills:** Mergers & Acquisitions Advisory · Go-To-Market Strategy · Market Research & Competitive Analysis · Stakeholder Management · Process Improvement & Operational Excellence
- Tools & Technical Proficiency:** Python (Pandas, NumPy, Matplotlib) · Advanced Excel (VBA, Power Query) · FactSet (Query Language, Universal Screening) · Bloomberg Terminal · SQL / MySQL · Jira & Confluence

KEY PROJECTS & RESEARCH

- Impact of ESG on Mergers & Acquisitions Deal Premiums: Analysed 120 global M&A; transactions via Bloomberg Terminal using a two-sample Z-test. Proved High-ESG targets command a 57.75% mean acquisition premium, validating ESG due diligence as a measurable value driver.
- Systematic Trading Strategy — Python MACD Algorithm: Back-tested a Python-based MACD trading algorithm achieving 18.4% annual returns (Sharpe Ratio: 1.12) and outperforming NIFTY by 4.6% — demonstrating quantitative investment analytics.
